

Lover's Lane - Page 2

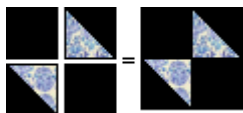

Sew two units as shown at far left for the block's top left and lower right corners...(these are Color 1 half squares)

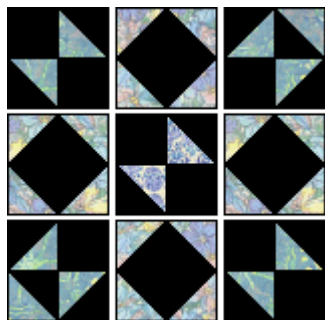

Sew two units as shown at far left for the block's top right and lower left corners...

Using the Color 2 2-7/8" half square triangles, and the Color 4 3-3/8" squares, make the block's side units. Sew triangles on opposing corners first, in a scant 1/4" seam, then sew on the two adjacent triangles...

Sew one unit as shown at far left for the block's center...(these are Color 3 half squares)

Now piece the block! Lay you the units as you see them at left. Sew three horizontal rows, pressing row seams in alternating directions. Join the three rows, and it's done! :o)

...on to Page 3!
